Install 2 - 1.25" ducts from vault to vault, placing 24 count fiber in one of the ducts and leaving the other one empty. Be sure to use duct caps on both ducts. Remove existing pedestals and replace with vaults. Be sure to install ground rods in each vault and use duct caps. Also place existing fiber and splice case from each pedestal into the vaults.

NATURE RD

Remove existing pedestal and replace with vault. Be sure to install ground rod and use duct caps. Also place existing fiber and splice case into vault.
